

Dancing On The Moon

MAN WITH A MISSION

Did you see me I was dancing on the moon
Could you feel me Cause I think I'm fading soon
I'll be dancing on the moon

See the rabbits We don't know why they're up there
Usual habits We don't mind yes we don't care
We would make a perfect pair

To feel the inspiration of your words
I'll be dancing on the moon
To feel the revolution in your world

Did you see me floating in this blue lagoon
Do you know me Cause I think I'm fading soon
I'll be dancing on the moon

To feel the inspiration of your words
I'll be dancing on the moon
To seize the true emotion in your world
I'll be dancing on the moon

To feel the inspiration of your words
I'll be dancing on the moon
To seize the true emotion in your world
I'll be dancing on the moon

I'll be dancing on the moon
