

Hasta La Vista

MAN WITH A MISSION

Blast off every and each declare today
Let us be free from the pain that we suffer now
Fuck off I don't believe in a thing you say
You'll never know and we don't care about it anyway

Ignore the regulation made by the others
Kiss goodbye to the shit you always suffer
Now we'll pick the mic Bless the rage
Yeah come on people rise make some noise

Hasta la Vista blast off your libido right
Hasta la Vista hop on to get it all right

Rebel and rise summon everything you feel
Whisper the word just to clarify the deal
And ya burn down the culture
that was schemed by those vultures
Never know what nurtures us, know what's fuckin' real

Ignore the regulation made by the others
Kiss goodbye to the shit that always smothers
Yes we'll hit the lights and bless today
Now come on revolution get it on

Hasta la Vista blast off your libido right
Hasta la Vista hop on to get it all right
Hasta la Vista blast off your libido right
Hasta la Vista hop on to get it all right

Hasta la Vista blast off your libido right
Hasta la Vista hop on to get it all right
Hasta la Vista blast off your libido right
Hasta la Vista hop on to get it all right
Hasta la Vista blast off your libido right
