MAN WITH A MISSION

The ray of the sun pouring down, come and purify
And save me from all that I see
From heaven will I hear the sound of eternity

Daichi no kodō ni tsutsuma rete tameiki o hitotsu
Kakae teta osore wa sora ni misukasa reta

Hakushi no chizu o hiraki omou iro ni nuritsubusu
Kakedashi-me o mihiraku kiseki no hajimari ga habataku

Hikari ga mi o hodoku
Can we go higher than the falling sky
Daichi fumishimete
We jump in the land to dance in the air so high
Kanata no sono mukō e
So raise me higher than the falling sky
Kakenukete misete
We jump in the land to dance in the air so high

Netsu o obita mama no kokoro o samasu koto wanai Wasurenai yō ni kioku kasan
eru no sa

Aragau mata toi dasu machigatteinai hazudato
Kaenai kaerarenai omoi o tada kogashi tsudzukete ku

Hikari ga mi o hodoku
Can we go higher than the falling sky
Daichi fumishimete
We jump in the land to dance in the air so high
Kanata no sono mukō e
So raise me higher than the falling sky
Kakenukete misete
We jump in the land to dance in the air so high

Let in the rhythm Break down the noise
To make yaself groove Lit up ya mind boyz
Get you in the ring Replace the damn fear
What's it gonna be It's your last chance dear
So jump in the air Get up in the sky
Or down to the ground just to live and die dry
You damn know what to do
Now it's calling falling? Roll it on to go

And am I still... But yes I will
Can we go higher than the falling sky
Habataite misete
We jump in the land to dance in the air so high
Kanata no sono mukō e
So raise me higher than the falling sky
Kakenukete misete
We jump in the land to dance in the air so high
