

Edge Of My Life

Manafest

Last Dollar
Just Got Spent it
First of the month
Got to pay rent

Where'd the money go?
Slipping through my hands
I'm working with these hands
Little Jonny needs a lunch box
Little Susy needs cloths and it won't stop
Banks callling up they don't care
It's more then can bare

I gotta, gotta believe
I can more then survive
Still one trick up my sleeve
We're gonna make this one shine

I gotta, gotta believe
I can more then survive
Still one trick up my sleeve
We're gonna make this one shine

I'm at the edge of my life
I got no time to think twincie
When I'm standing with the weight of the world on my shoulder
I'm going to fight the good fight
Cause I know I'll get by
When I battle every day through the pain like a soldier
Edge of my life

Mom crying on the sofa
Dad comes home but he's not sober
Where'd the family go up in smoke again
Feels just like sinking sand
Heard shouts in the backyard (Hey!)
Sirens ringing from a cop car
It's a rough day for this family man
I'm praying with these hands

I gotta, gotta believe
I can more then survive
Still one trick up my sleeve
We're gonna make this one shine

I gotta, gotta believe
I can more then survive
Still one trick up my sleeve
We're gonna make this one shine

I'm at the edge of my life
I got no time to think twincie
When I'm standing with the weight of the world on my shoulder
I'm going to fight the good fight
Cause I know I'll get by
When I battle every day through the pain like a soldier
Edge of my life

Just don't look down, and you'll never fall

I gotta, gotta believe
I can more then survive
Still one trick up my sleeve
We're gonna make this one shine

I gotta, gotta believe
I can more then survive
Still one trick up my sleeve...

I'm at the edge of my life
I got no time to think twincie
When I'm standing with the weight of the world on my shoulder
I'm going to fight the good fight
Cause I know I'll get by
When I battle every day through the pain like a soldier
Edge of my life
