Impossible

Manafest

Crying and hiding this feeling
Running and fighting for freedom

This is the last time, I'll cry lullabies
All night can't sleep I hear the floors creek
I feel shadows in my room
My friends find another bruise
I'm a end up on the news
I just don't know what to do
God I'm calling you
Send an angel send two
I want a move but I'm trapped in the other room
I know you hear me clearly I'm weary
Come and fill me with your power heal me

It seems impossible for me to let this go
Feel like an animal, I'm ready to lose control
Take everything you need, take every part of me
Give me some room to breathe, before I lose control

I got to get away
got a break away
Got to find away
Got to break the chains
Take me
Before I lose control
Before I lose control
It seems impossible
It's not impossible

I'm tired so tired of walking through this fire
If you want to find me I'll be here in my room
I'm thinking your drinking,
Need to get out before you start swinging
Wish I could show you all the pain inside me

It seems impossible for me to let this go
Feel like an animal, I'm ready to lose control
Take everything you need, take every part of me
Give me some room to breathe, before I lose control

I got to get away
Got a break away
Got to find away
Got to break the chains
Before I lose control
Before I lose control
It seems impossible
It's not impossible

It seems impossible
(Crying and hiding this feeling
Running and fighting from freedom)
For me to loose control
(Crying and hiding this feeling
Running and fighting from freedom)
It seems impossible

It seems impossible, for me to let this go
Feel like an animal

It seems impossible for me to let this go
Feel like an animal, I'm ready to lose control
Take everything you need, take every part of me
Give me some room to breathe, before I lose control

It seems impossible, for me to let this go
Feel like an animal

(It seems impossible
It's not impossible)

It seems impossibleeeee
(, I'm ready to lose control
Take everything you need, take every part of me)
Before to loose control
