

Throw It Away

Manafest

Wasted
Faded
How did we get so jaded
Hallow
Tomorrow
We can't just throw it away
We can't just throw it away

Woke up, choked up in my sleep
A piece of me drifts away

Not just a meltdown, say you want to leave now
Can't believe how you left just to watch me drown

Come and pick up your things
Before it goes up in flames

Where did I go wrong, pacing up all night long
Singing my sad song married to a time bomb

Wasted
Faded
How did we get so jaded
Hallow
Tomorrow
We can't just throw it away
We can't just throw it away

We got to pull ourselves together
Nothing lasts forever
Pull ourselves together
Move on now or never

'Cause I am
Wasted
Faded
How did we get so jaded
Hallow
Tomorrow
We can't just throw it away
We can't just throw it away

Every time I try to forget
My memory just won't erase

Can't escape, I'm a wreck, I can't sleep
Can't stop drinking, haven't slept in 3 weeks

I don't hate you, no I don't
But won't pretend it's ok

Hate me waste me with every lie
But we can't go back, this is our life

Wasted
Faded
How did we get so jaded

Hallow
Tomorrow
We can't just throw it away

Wasted
Faded
How did we get so jaded
Hallow
Tomorrow
We can't just throw it away
We can't just throw it away

We got to pull ourselves together
Nothing lasts forever
Pull ourselves together
Move on now or never
