To be on the top of the world  
To be on the top of the world

The stores are open people buying, people trying climbing  
To get to the top of the world, in this modern day war and it's Simple Simon  
I'm paying my bills she's taking some pills he's drunk and behind the wheel  
Actors acting, rappers rapping trapped in a drug of a deal  
Homeless or looking for meals the thief is still looking to steal  
You chasing the money or chasing you praying for marriage, romancing your ho  
ney  
I'm searching but where does it end, I'm leaning on calling on a friend  
I'm running, and running, for someone, to lend me a hand or to help me ascen  
d

To be on top of the world  
Gotcha, gotcha ye girl  
It's watch you wanted watch you want  
It's what you're living for

To be on top of the world  
Gotcha, gotcha ye girl  
It's watch you wanted watch you want  
It's what you're living for

Hey, Hey, got to believe in something  
Hey, Hey, you got to climb to the top of the world,  
Hey, got to believe in something  
Show you the way, every day is a mission to be  
On Top of the world

It's 9'oclock right on the dot and you'll be here to 5  
Armies are marching on the fields we pray they all survive  
Peace on earth to all men, the stars they shine from heaven  
It's whatcha you want, it's what ye want, it's what we're living for  
A boy and girl they hold hands, I hope it lasts forever  
It's never enough to find one that you love and not just seeking self to ple  
asure  
What is this mountain you climb? Is it for peace or for pride?  
The prize, the goals, the thoughts inside are motives comes alive

Hey, Hey, got to believe in something  
Hey, Hey, you got to climb to the top of the world,  
Hey, got to believe in something  
Show you the way, every day is a mission to be  
On Top of the world

Left, right, left, right, step into the lime light  
Get into your car drive, everything is alright  
It's alright, alright, everything is alright  
Live like it's your last night, (LIVE LIKE ITS YOUR LAST NIGHT)  
I wanna live forever, while storing up some treasures  
I wanna go to heaven and never be abandoned  
I'm spending my time now renewing my mind to the truth I climb so high  
I find and apply to my life the joy I will lift up my eyes
