

# Don't Let Them See You Cry

Manchester Orchestra

Don't let them see you cry  
When the dam breaks down and the city is covered in water  
Cause I believe we fly  
When the moon takes shape and I doze off, on your  
shoulders

I trust that you see it too

So breathe while you're alive  
Let the big band play as you tap leather with your  
fingers  
And I tried to write in style  
But the words just come and I write them as soon as I see  
them

And I trust that you write them too  
And I trust that you love me too
