

# I've Got Friends

Manchester Orchestra

Dirt in the ground is what I need  
I got another one to tell you  
and another one to make you believe  
pity in the grass tried to be  
the one you needed when I told you  
that you wanted something bigger than me

I've got friends in all the right places  
I know what they want  
and I know they don't want me to stay  
I said that I've got friends in all the right places  
I know what they want  
and I know they don't want me to stay

'cause you are not alive  
when I need you  
I need it quickly  
in case you never know

I can't play where I'm not supposed to anyway

dirt in the ground is what I see  
I need another reason why  
I need another reason, tell me to breathe  
the dirtier the sound, the best I breathe  
I tried to do it all for you  
it didn't do anything for me

'cause I've got friends in all the right places  
I know what they want  
and I know they don't want me to stay  
I've got friends in all the right places  
I know what they want  
and I know they don't want me to stay

and you and I will find  
that when I need you  
I need it quickly  
in fact, you'll never know

I've got friends in all the right places  
I know what they want  
and I know they don't want me to stay  
I said that I've got friends in all the right places  
I know what they want  
and I know they don't want me to stay.
