

# Shake it Out

Manchester Orchestra

Shake it out, shake it out  
God, I need another round, another round, another round,  
another I could feel it now.  
I felt the lord in my father's house.  
Well, I could see, I could see  
standing we were seventeen make it clean  
Are you the living ghost of what I need?  
are you giving me the best of me.  
we, will see.

'Cause I'm done being done with the funerals at least for now  
are you tired of being alone, are you tired of being alone?

Shake it out, shake it out.  
Tired of another round another  
wasn't really what I wanted so we brought it out.  
over the shore to my neighbors house.  
I could see I could see  
God I've never seen a thing so complete  
I am the living ghost of what you need  
I am everything eternally, god just speak.

'Cause I'm done being done with the funerals at least for now  
are you tired of being alone, are you tired of being alone?

So speak to me

oh god you got to shake it out, shake it out.  
you got to take it out, take it down  
I got to jump around, I needed that more then I ever have.  
Oh God, you got to shake it out, shake it out.  
you got to break it down, break it out  
you got to jump around, I feel it now more then I ever have.

I felt the Lord begin  
to peel off all my skin  
and I felt the weight within  
reveal the bigger mess  
that you can't fix

I swear, I swear I'll go  
Lead me into my home  
Don't stop, don't ever go  
I swear you'll never know  
you'll never know

oh god you got to shake it out, shake it out.  
you got to break it down, break it out
