

# Kissing The Day

Mandalay

Nothing you say  
Can hurt me now  
Into the space  
I fell, I fall

A strange river is deep in my  
Into the dark I dive

I took leave  
Kissing the day  
Took leave  
Kissing your mouth  
Supportively  
Kissing the day

It took sometime from me to try  
To learn to love this child of mine  
Not for nothing she survived  
Into this space  
I fell to find

I took leave  
Kissing the day  
Took leave  
Kissing your mouth  
Supportively  
Kissing the day

You're sad star  
It's too late to cry  
Your tears could be  
Your saddest no

I took leave  
Kissing the day  
Took leave  
Kissing your mouth  
Supportively  
Kissing the day

I took leave  
Kissing the day  
Took leave  
Kissing your mouth  
Supportively  
Kissing the day
