

# Lifeline

Mandisa

Here I am  
Drowning in a sea of my own choices  
Holdin to a hope by a thread  
Yeah  
I'm lookin round  
I'm callin out, fear pulls me down  
When the waters rush over my head

You are my lifeline  
You are my rescue  
Strength in my weakness  
Light in my darkness  
You are my safety  
Lifter of my head  
The air that I need when  
I can't seem to breathe in

You are my lifeline  
You are my lifeline

How many times  
How many turns will it take till I learn  
You reach for me in my need  
And when I cry I will faithfully find you  
When life comes crashin on me

You are my lifeline  
You are my rescue  
Strength in my weakness  
Light in my darkness  
You are my safety  
Lifter of my head  
The air that I need when  
I can't seem to breathe in

You are my lifeline  
You are my lifeline

Your there in my brokenness  
And my distress  
My rock when I'm stronger when I'm powerless  
You hold me and rush when tides and waters rise

And I always find

You are my lifeline  
You are my rescue  
Strength in my weakness  
Light in my darkness  
You are my safety  
Lifter of my head  
The air that I need when  
I can't seem to breathe in

You are my lifeline  
You are my rescue  
Strength in my weakness

Light in my darkness  
You are my safety  
Lifter of my head  
The air that I need when  
I can't seem to breathe in

You are my lifeline  
You are my lifeline  
You are my lifeline  
You are my lifeline!
