

# These Days

Mandisa

I never liked Mondays or bad news  
Or breakin in new shoes  
And mornings when I can't find my phone  
Nobody likes traffic or short nights  
Or situps or long flights  
But sometimes that's just the way it goes  
It's funny what you use to help me grow...

So I'll learn to love these days  
Life along the way  
In the middle of the crazy  
God your love is so amazing  
Through the ups and downs  
You're the only hope I've found  
The Lord you meet me in the madness

I'll learned to love these days  
I'll learned to love these days

I can see a silver linin  
When the sun's not shinin'  
Even when you choose to bring the rain  
Oh, but I'm trustin your leadin'  
'Cause your Lord of all my joy and all my pain

So I'll learn to love these days  
Life along the way  
In the middle of the crazy  
God, your love is so amazing  
Through the ups and downs  
You're the only hope I've found  
The Lord you meet me in the madness

I'll learned to love these days  
I'll learned to love these days

I could wait the hundred years  
You gave me here the days when you near  
The days when I was out there  
Lookin for what comes next  
Oh, cause every minute, every hour, everyday  
Is such a gift and I can say  
I'm thankful for each day

So I'll learn to love these days  
Life along the way  
In the middle of the crazy  
God, your love is so amazing  
Through the ups and downs  
You're the only hope I've found  
The Lord you meet me in the madness

So I'll learned to love these days  
I'll learned to love these days  
I'll learned to love these days  
I'll learned to love these days
