

Victorious

Mandisa

If You could send a burning bush to Moses
Lead Your people home through a parted sea
Give a boy the strength to defeat Goliath
I know You will always take care of me

With You on my side, I am victorious
With You on my side, I've got nothing to fear
So I can walk through this valley with confidence
Knowing You will deliver me

If You could raise the dead bones of Lazarus
If You could feed five-
thousand with a couple fish and a loaf of bread
And in the middle of a stormy night You can walk on water
I know, I know, I know nothing's out of Your hands

If You could pull me out of my sin
And give me new life within
And keep all Your promises
And Your Word is true then
I don't have to be afraid
I know this is the day You made
So no matter what comes my way

[Chorus]
