

## Down In The Past

Mando Diao

Well I don't wanna hang around with you  
I've got my motor baby and I'm gonna see you through  
You think I wanna be alone with you  
It doesn't matter baby cause you're overreacted too  
But since you're down there,  
where will I just be  
I'm getting fine girl,  
dressing up for stormy weather  
So touch me down in the past where my mother will last  
And it's true that I'm in for a punch and a blast  
Yeah down in the past where my mother will last  
And she will make sure that you remember

Well I don't wanna slide away with you  
I've got ten little soldiers pointing at you  
Honey you just left me for a new one  
It doesn't matter baby cause your hair is ugly too  
But since you're down there, where will I just be  
I'm getting fine girl, dressing up for stormy weather  
So touch me down in the past  
Well I don't wanna hang around with you  
I've got my motor baby and I'm gonna see you through  
You think I wanna be alone with you  
It doesn't matter baby cause you're overreacted too  
So touch me down in the past That you remember Come on
