Jimmy you never feared the life ahead you never lived the life I gave you when I hold you Daddy said you're gonna get it You're gonna burn before the dawn Your blood is poisoning your people your own people

your addiction in the one the sweetest one, the precious one oh that freedom

So give me, Give me fire
It doesn't always have to end
Oh Jimmy Jimmy Fire
My love's with you 'til the end

Coma, your my brightest shining star you're my darkness in the morning winter morning crystal fly over the ceiling bugs my dreaming in the night the man above decides my future where I'm destined

my addiction in the one
the sweetest one, my precious one
oh that freedom

So give me, Give me fire
It doesn't always have to end
Oh Jimmy Jimmy Fire
My love's with you 'til the end
My love's with you 'til the end

Mama, why did you comfort him at night? did we forget that he was pure? how I miss him my love's with him 'til the end, the sweetest end, my precious end oh my freedom

So give me, Give me fire
It doesn't always have to end
Oh Jimmy Jimmy Fire
My love's with you 'til the end
