

## Go Out Tonight

Mando Diao

You and me, you and me  
Will always find a salty sea  
To clean our wounds and find our self esteem  
It's you and me forever

Funeral, I hope my time will come when  
all is gone,  
When all the violins play the saddest songs  
My love for you will rise up and sing

I will go out tonight  
Don't wanna waste my time  
I feel I'm bound to fly  
And I don't love you no more  
I say I'm heading out  
Don't wanna waste my pride  
I will go out tonight  
And I don't love you no more

So did I!  
I recognize myself in all your lies  
It doesn't matter what you say tonight  
You guide me through our satire  
Let's drink up for those who left us  
Standing at the gates of dawn  
And all the bastards leaving us without  
a cause  
They'll trail us down and kill us

I will go out tonight  
Don't wanna waste my time  
I feel I'm bound to fly  
And I don't love you no more  
I say I'm heading out  
Don't wanna waste my pride  
I will go out tonight  
And I don't love you no more
