

# God Knows

Mando Diao

Well I turned left just like you told me to  
I get excited by the moves you do  
I'm on a mission and  
I'm gonna get away  
Well I saw her standing all colored in red  
I felt the blues just by the things she said  
I want my mission so I can escape today Yeah

R: God knows - I ain't sleeping but I want my line  
God knows - I ain't happy so I want it back tonight  
Oh brother can you help me out  
God knows - I've got nothing so accept my time  
God knows - it ain't easy to behave in this spotlight  
Oh brother can you help me out

Well I turned the page from number three to four  
You had nothing on you by my bedroom door  
You had your mission now  
I'm gonna get away

When this is over and our souls are saved  
When I am buried when I've got my own cave  
I've done my mission so I won't be here today

God knows - I ain't sleeping

I turned right just like  
I thought you would  
I got excited like you said  
I would I'm on a mission and I'm getting blown away  
Well I saw her standing all colored in red  
I felt the blues just by the things she said  
I want my mission so I can escape today

God knows - I ain't sleeping All right
