

# The Wildfire (If It Was True)

Mando Diao

Well there's something in the way  
She said I hate you 'cause you breathe  
It's not the first time that i heard it  
But this one is out of reach  
I got my mind set on destruction  
And if it will strike me hard  
Will you remember me

Oh it's in the way you set your life  
On your alarm and hit the snoozer  
You waste your life expectancy  
You throw away your hopes and dreams  
The night will never end, it'll stay forever  
Well the dark will eat you up inside

So I smile and shed a tear  
And said when will you go away  
She said who cares you're not  
Entitled to ask those things today  
Don't let the salt get in your eye  
Don't let the ghost get in your heart  
There were sweet memories  
In the corner of my mind  
They were telling me to throw up  
All the things that I want to hide that

We're having fun in the daytime  
We'll chase the stars in the nighttime  
And we'll take the sun in the morning  
We just don't care if they see us fall  
If it was true

Well today I bought the paper by myself  
And cried 'cause everyone was happy  
And on the streets well they where dancing  
To some kind of Puerto Rican music  
That we would hate  
But we would just move along to

So if you're driving in your car  
And hear this song on radio  
Well I know that it sounds silly  
'Cause you don't have a car  
But I just read it in a book  
That these things happen in the fictive world

So I smile and shed a tear  
And said when will you go away  
She said who cares you're not  
Entitled to ask those things today  
Don't let the salt get in your eye  
Don't let the ghost get in your heart  
There were sweet memories  
In the corner of my mind  
They were telling me to throw up  
All the things that I want to hide that

We're having fun in the daytime  
We'll chase the stars in the nighttime  
And we'll take the sun in the morning  
We just don't care if they see us fall  
Just don't care  
Just don't care at all  
If it was true

Well there is something in the air  
That makes it difficult to live  
The way we lived back in the days  
When we had all the time to kill  
It's just the wildfire burning  
There's no way to put it out  
Just a wildfire spreading  
Through my days and through my nights  
Don't ask no questions  
Don't ever tell no lie  
I'm so tired of explaining  
Every minor detail of my life

We're having fun in the daytime  
We'll chase the stars in the nighttime  
And we'll catch the sun in the morning  
We just don't care if they see us fall  
We're having fun in the daytime  
We'll chase the stars in the nighttime  
And we'll catch the sun in the morning  
We just don't care if they see us fall  
Just don't care  
Just don't care at all  
If it was true
