Yellow burning thing, it's a dirty sin I know I'm on the pavement of my own mind, it's silly Silly as the weather in June, March or December Silly as a man can be, and I'm down, yes I'm down

And I sang my... La la teacher, my la la teacher for you (I'm c oming on the window)

My la la teacher, my la la teacher for you (I'm coming on the w indow again)

And I watched my little Baby from the seaside

Do you remember, the days when we were young All tied up by a teacher's hand

I was too shy and they said you're too dry, but I didn't notice Flowers were hot in the cold winter night and so was I, yeah so was I

And I sang my la la teacher, my la la teacher for you (I'm coming on the window)

My la la teacher, my la la teacher for you (I'm coming on the w indow again)

And I watched my little baby from the seaside Yeah I watched my little baby from the seaside I watched my baby from the seaside

Though it's been far away I'm gonna help you out Though it's been far away I'm gonna help you out Though it's been far away, yes it's been far away

And I sang my La la teacher, my la la teacher for you....

I watched my little Baby from the seaside....
