

# You Don't Understand Me

Mando Diao

You came a long way you didn't know my name girl  
You thought that I was just a gigolo  
And you told all your friends that I was strange and weird  
But that's a lie that I'm sure you know  
So I'm telling you where to start  
But you're not interested at all

'Cause you, you don't understand me  
You don't understand what  
What I've been through  
You don't understand me  
You don't understand what  
What I've been through  
Oh what I've been through

It's such a shame I'm wasting all my talent  
Writing songs to you without feelings  
You didn't want the heaven by your side  
That's too bad you'll see 'cause I'm warm and nice  
And now you're telling me where to go  
I wish that I cared, but I don't

'Cause you don't understand me  
You don't understand what  
What I've been through  
What I've been through

But I will always be the one that holds you in the end..
