

## Brain Storm

## Mandragora Scream

Follow me all over  
where you are there is no life  
always you the only  
oooh you...! can hear  
me  
save my brain  
save my death  
and now...  
tell me if you now can me fly  
you now can cry and give me your light  
now I stay in my creeper...  
I remember shadows life  
every night they come alive  
always you the only one  
always you can, only the end...  
now, if you want kiss my stormy brain  
do you know where my black rain ends...?  
listen to the roar of the stormy sea  
feel how my soul now is frozen breeze  
my quiverin' voice bewitched by the wind  
now I fell under these green leaves
