

Lucifer's Ballade

Mandragora Scream

Baby touch my bloody tales
Live your fears away
You'll see this, I'm this you can believe at all

Now it's time, time to realize your life
Blood is light in my Lucifer eyes
Nights of burning pyres
You'll dance around my tales
Fallin' in a land that is so far away

In this night I'll love you and love again
Live you creed alone
My eternal life... I'm here
This virgin love of time made of
Embraces my Lucifer arms
And tell me baby

Baby lick my deadly skin
And touch my ghostly soul
Now kiss me & bring me
The life you're waiting for
