

## Silences

### Mandragora Scream

And now I'm breathin' in your corpse,  
callin' from you...  
A fadin' of an eerie glow  
cellers out of sight,  
lanes, lanes! ...callin'!

I'm madly lustin' your haunted haze,  
enchanted, fading soul,  
I feel an ooze inside my hands  
shakin', bloody blaze, eyes, cries!  
Calling you...  
Now!

These night shades rise up behind  
snakin' on my limbs, limbs!  
With murky whisper roamin' mist  
you are my hideaway...  
Mine!

...Silences into, cover me,  
like a tongue in, this still of life...  
Coverin' your feelin' through might,  
lickin' your blood with my sighs.

So that I can breath all your flesh.  
Christen my haze!  
With your grim captivatin' call  
balefires and gale  
writhe, writhe ...callin'!

And now I'm breathin' in your corpse...  
Come and get me!  
I feel an ooze inside my hands  
shakin' and bloody blaze, eyes, cries!  
Callin' you,  
Now!

These night shades rise up behind  
snakin' on my limbs, limbs!  
With murky whisper roamin' mist  
you are my hideaway...  
Mine!

...Ominous sin, became true daydreams  
daunt me made of mist of grace.

Recallin' me back to life  
recallin' you back to life...
