

Titan (Extraterrestrial suicide)

Mandragora Scream

Titan, oh Titan

Floatin' in space
Breathless I'm reaching you
My black sun
Bleedin' heart of methane
Empty veins

Like a lake, full of tears
All my hopes for my absolution
With your grace, touch my lips
Feel my death kiss

Let me die, slake my thirst
Let this poison flowing in me
Dawn is gone, death as come
Now it's time to die

Titan, oh Titan

Here it's gloom
Methane, greenish snowflakes
Cage of doom
Are still ablazing and waitin'
My absolution

Dawn is gone
I will rise here... As a moon of Titan
