

Risque

Mandy Capristo

Girly girl
Buttons and pearls
Pretty in pink
Was my favourite thing
So sweet

Rosy cheeks
Starry eyes
Virginity personified
That was me
So sweet

But something's waking up
Waiting to be touched
Sexiness not innocence
Lately
You make me feel

Risque
So risque
Risque
So risque

A touch of lace
Perfectly placed
A flash of skin
And so seduction begins
So close
Steamy look
Firey lips
I feel your burning fingerprints
Over me
Overload

But something's waking up
Waiting to be touched
Sexiness not innocence
Lately
You make me feel

Risque
So risque
Risque
So risque

A strap falls off the shoulder
Every move is getting bolder
I know now instinctively
How good it feels to be

Risque
So risque
Risque
So risque
