

Side Effects

Didn't know what I had got myself into
Now I'm stuck with all these feelings I can't undo
Like a habit I was just getting used to you
How can I shut you out of my head
How can something feel so good hurt so bad
Can't stop thinking 'bout the nights that we've both had

We were talkin' for hours, made everything better
Time always flies when we're together
Now that you're gone, every minute feels like forever

And I'm walking through this crowded place
It's like everybody has your face
Don't wanna talk to anyone
Lost in this oblivion
If falling in love was the easy part
Why's it messing up my heart
Crashing down from this high
Feeling like a wreck
Nobody warned me 'bout the side effects

It's getting hard to breathe, I'm feeling so low
You're like my whole world that's left me hollow
You're my addiction and it's starting to take its toll
Just like a drug that makes you feel better
I'm on withdrawal when we're not together
Now that you're gone, every minute feels like forever

Now I'm walking through this crowded place
It's like everybody has your face
Don't wanna talk to anyone
Lost in this oblivion
If falling in love was the easy part
Why's it messing up my heart
Crashing down from this high
Feeling like a wreck
Nobody warned me 'bout the side effects

My vision is blurred
Every part of me hurts
I'm trying to speak but there are no words
You got under my skin
I don't know where you end and where I begin

And I'm walking through this crowded place
It's like everybody has your face
Don't wanna talk to anyone
Lost in this oblivion
If falling in love was the easy part
Why's it messing up my heart
Crashing down from this high
Feeling like a wreck
Nobody warned me 'bout the side effects
