

# Sing

**Mandy Capristo**

Between each breath we breathe  
We soon forget  
If this is all a dream  
Don't wake me yet

CHORUS

Just sing if you love someone  
Sing if you've lost someone  
When you feel you have all you want  
Sing when it's all you've got  
Beneath this breathless sky  
We'll make a stand  
To find ourselves tonight  
It's all we

CHORUS

When it's all you've got (3x)  
It's all we've got
