

Top of the World

Mandy Moore

For a time, I thought my faith, it must be hiding
Searching through the sky, hoping to find a way
A way, to get me through the day
Don't know where I belong, is this where I should stay

Life me up, when I am falling
You're my friend, when I was calling
Now I'm on top of the world
Top of the whole wide world
Yeah, you've always been believing
Gave my life a whole new meaning
Now I'm on top of the world
Top of the whole wide world

There's a strength in me, it seems, I have forgotten
Now I, realized today, I'm starting to dream again
Again, was a matter of when
I guess we all lose our way, now and then

Life me up, when I am falling
You're my friend, when I was calling
Now I'm on top of the world
Top of the whole wide world
Yeah, you've always been believing
Gave my life a whole new meaning
Now I'm on top of the world
Top of the whole wide world

You lift me up, when I was falling
You lift me up, when I was falling

Life me up, when I am falling
You're my friend, when I was calling
Now I'm on top of the world
Top of the whole wide world
Yeah, you've always been believing
Gave my life a whole new meaning
Now I'm on top of the world
Top of the whole wide world
(Whole wide world)

Yeah, you've always been believing
Gave my life a whole new meaning
Now I'm on top of the world
Top of the whole wide world

Always been believing
Gave my life a whole new meaning
Now I'm on top of the world
Top of the whole wide world

Top of the whole wide world

Yeah, you've always been believing
Gave my life a whole new meaning
Now I'm on top of the world
Top of the whole wide world...
