

# We Could Be The Same

MaNga

You could be the one in my dreams  
You could be much more than you seem  
Anything I've wanted in life  
Do you understand what I mean?  
I can see that this could be fate  
I can love you more than they hate  
Doesn't matter who they will blame  
We can beat them at their own game

I can see it in your eyes  
It doesn't come as a surprise  
I've seen you dancing like a star  
No matter how different we are

For all this time  
I've been loving you  
Don't even know your name  
For just one night  
We could be the same  
No matter what they say

And I feel I'm turning the page  
And I feel the world is a stage  
I don't think the drama will stop  
I don't think they'll give up the rage  
But I know the world could be great  
I can love you more than they hate  
Doesn't matter who they will blame  
We can beat them at their own game

I can see it in your eyes  
It doesn't come as a surprise  
I've seen you dancing like a star  
No matter how different we are

For all this time  
I've been loving you  
Don't even know your name  
For just one night  
We could be the same  
No matter what they say (say, say)

For all this time  
I've been loving you (loving you)  
Don't even know your name  
For just one night  
We could be the same  
No matter what they say  
No matter what they say (they say)  
We could be the same  
No matter what they say
