

Closer

Manic Drive

Humanity lies in bed
And we wait for the world to change
Ya we wait for the world to change
A miracle waits in rest
But we're too young to realize it
So we ask a simple question

So show us that we need You
Even if it starts to make us cry
Please don't give up, show us the truth
Even if we try to run and hide

Cause we need You closer
Cause I need you closer
So take all I am, start again, bring me in
Cause I need You
Cause I need You closer

We're old enough so we know the game
And that miracle never came
Or it was different then expected
We turn around and we curse His name
They convince us that our God is dead
And it's His fault that we lost Him

So show us that we need You
Even if it starts to make us cry
Please don't give up, show us the truth
Even if we try to run and hide

Cause we need You closer
Cause I need you closer
So take all I am, start again, bring me in
Cause I need You
Cause I need You closer

We wait to think about it again
When we hit rock bottom
Ya I hit rock bottom

Cause we need You closer
Cause I need you closer
So take all I am, start again, bring me in
Cause I need You
Cause I need You closer
So take all I am, start again, bring me in
Cause I need You
Cause I need You closer
