## **Doors Closing Slowly**

## **Manic Street Preachers**

Realise how lonely this is Self-defeating, oh, fuck, yeah Drowned in love and false kisses A gathering of no meaning

That shadow is a cross okay Judgement must willing today Silence is not sacrifice Crucifixion is the easy life

Who threw the first stone
If the stone is you
Forgive them forsaken
Bleeding feet an angel's saviour

That shadow is a cross okay Judgement must be willing today Silence is not sacrifice Crucifixion is the easy life

Embrace to betrayal
An arms army salvation
Listen to the selfish ones
They are the voice of accomplishment
