

# Kiss My Eyes For Eternity

Manic Street Preachers

Killing me softly with silence  
Shoot my eyes out just for fun  
Killing me quickly with more guidance  
The cracking of an actor has begun  
Killing me slowly with torture  
The staring would scare any man  
Killing me like a queen bee supreme  
I'm being honest as I can

Kiss my eyes for eternity  
And cover me blind  
And cover me gently

Killing me slowly with torture  
The staring would scare any man  
Killing me like a queen bee supreme  
I'm being honest as I can  
Killing me softly with silence  
Shoot my eyes out just for fun  
Killing me quickly with more guidance  
The cracking of an actor has begun

Kiss my eyes for eternity  
And cover me blind  
And cover me gently

Kiss my eyes for eternity  
There's so much pain  
So don't let me see

You said I've decided to forgive everyone else  
The hardest thing is to do is to forgive yourself  
You said I'd love to forgive everybody else

Kiss my eyes for eternity  
And cover me blind  
And cover me gently
