

Show Me the Wonder

Manic Street Preachers

This is no threat
Just an invitation
A sense of belonging
A sense of inspiration

Is heaven a place
Where nothing ever happens
Is it too much to ask
To disbelieve in everything

Show me the wonder
I have seen the birthplace of the universe
Show me the wonder
I have seen their records move in reverse

If you're exiled
By all the cruel tongues
Then show me the wonder
The wonder of your love

A tapping pain of madness
Running through their veins
We may write in English
But our truth lays in Wales

Show me the wonder
I have seen the birthplace of the universe
Show me the wonder
I have seen their records move in reverse

Praying for the silence
When we look in to a mirror
Stained so patient
We measure the nostalgia

Is heaven a place
Where nothing ever happens
Is it too much to ask
To disbelieve in everything

Show me the wonder
I have seen the birthplace of the universe
Show me the wonder
I have seen their records move in reverse

Show me the wonder
Show me the wonder
I have seen their records move in reverse
