

# Black Lotus

## Manilla Road

The time is right  
This very night  
To smite the horde  
With fire and sword  
I have found the man  
Who can fight the damned  
Wit the power pure  
No hell can endure

With darkness soon  
And the rising moon  
He will see  
All the lotus dreams  
Lady of the light  
Show this man tonight  
What it's like to feel  
The dreams become so real

Help me please  
I'm on my knees  
The lotus freeze  
Has got a hold on me

The time is right  
This very night  
To smite the horde  
With fire and sword

Help me please  
I'm on my knees  
The lotus freeze  
Has got a hold on me

Help me please  
I'm on my knees  
The lotus freeze  
Has got a hold on me
