

Centurian War Games

Manilla Road

Time has never simplified
it's always been so cruel
Deep down inside our hearts
we know it's all for fools
The tribulations of this land
are coarse and deep within
Raise up with all your might
use the power we have to win

For we're centurians in a game of war
fighting for fortune and fame
We're the warriors of a dying race
in the centurian war games

The swords that gleam against the sky
that's red with fires of war
The warriors they fight side by side
till time is nevermore
Let us win our certain fame
in the game that ends all games
We will win our rival name
in the centurian war games

For we're centurians in a game of war
fighting for fortune and fame
We're the warriors of a dying race
in the centurian war games
