

# Dig Me No Grave

Manilla Road

Here I stand like the rock  
Born and bred to survive  
I may not be at the top  
But still it's good to be alive  
Feeling the flow of the chops  
Whether be music or flesh  
This is where sanity stops  
But don't dig a grave for me yet

Dig me no grave

I was a rocker from birth  
A rocker I'll be till I die  
Scorching the face of the earth  
Bringing the music to life  
Flying on high like a bird  
Nothing can ever shoot down  
Metal is dead so I've heard  
But not while I'm still above ground

So dig me no grave

This is the dream of my life  
This is the life of my dream  
It's a hard road to survive  
But nothing comes easy or free  
Seems to be so little time  
Yet life is an eternity  
I haven't made my last rhyme  
So keep your damn dirt off of me

Dig me no grave
