

# No Sign From Above

Manilla Road

We have searched throughout eternity  
To find the hidden truth  
But it still remains a mystery  
Man doesn't have a clue

And we strive so hard for snity  
That we can't find the news  
What happened to serenity  
I thought we paid our dues

Waiting for a sign  
Waiting for a sign from above  
Waiting for a sign  
Waiting for a sign from above

As the tyrants lead us all astray  
Through the timeless winds of war  
There will be no other games to play  
When our bones rot on the shore

And it seems we've nothing more to say  
Than the things we've said before  
We must break out of the moldedc lay  
Get back our wings and soar

Don't wait for a sign  
There'll be sign come from above  
Get your wings and fly  
Wash away the stain of blood

Yet the chains are still unbroken  
And you haven't learned to fly  
If we don't get back our wings  
We're sure to die

Don't wait for a sign  
Tere'll be no sign from above  
Get your wings and fly  
Wash away the stain of blood
