

# Only The Brave

Manilla Road

Metal mayhem and wonder  
Rolling on through the night  
Bringing down holy thunder  
In the circle of light

No one shall put asunder  
What we've forged here in fire  
Let the halls of Valhalla resounding  
Hail to the god with one eye

If we must all go down in flames  
We'll go down fighting in Thor's name  
We'll ride the thunder to the grave  
Wielding death by the hammer  
Glory comes only to the brave

Stand for metal and honor  
Raise your blades to the light  
Let the war cries of Midgard ring out  
Press on and never say die

If we must all go down in flames  
We'll go down fighting in Thor's name  
We'll ride the thunder to the grave  
Wielding death by the hammer  
Glory comes only to the brave.
