

## Venusian Sea

Manilla Road

I traversed through the galaxy  
To come to this place  
A wild envisioned dream of mine  
To live deep in space  
A course that I have set myself  
I will be strong  
For however long it takes  
To reach my final destiny  
I will be free  
And now unto me  
Venusian Sea

I've got to it alone  
There'll be no help  
In the danger zone  
I've got to give it my all  
Everything that I've lived for  
Venusia my dream

I traversed through the galaxy  
To come to this place  
A wild envisioned dream of mine  
To live deep in space  
A course that I have set myself  
I will be strong  
For however long it takes  
To reach my final destiny  
I will be free  
And now unto me  
Venusian Sea

Just like a dream  
Now I believe  
A city beneath  
Venusian Sea

What do you see?  
What do you care?  
Have you found it?  
Is it really there?

I your own mind  
For the rest of all time  
Have you lost all of your pride?  
In your life  
Venusia my dream
