## **Whitechapel**

## **Manilla Road**

Tonight's the night I long to strike
The time is right
Ripper

Outside the law I taunt them on My blade is drawn Ripper

It's the blood before my eyes
Bringing newborn life
To this tortured mind

I thrive and feed on fear Come closer now my dear Your Uncle Jack is here

The hunt is on
I'll R.I.P. them all
Sweet carrion
Ripper

Whitechapel's lights Gleam off my knife It's time to die Ripper

Nightmare of slaughter Come to the daughters Who sell their wares

Sadistic visions Bloody incisions On bodies bared

Inside the chapel Unholy chapel
The blood will flow

Streets stained in crimson With blood of women Whose souls I stole

No place to hide That I won't find I rule the night Ripper

I've no remorse
Ripping your corpse
You filthy whore
Ripper

Oh, can't you see that I'm obsessed It's like I've been possessed I'll lay your soul to rest this night

With my knife

I've turned these streets to hell The Demon's come to dwell Tolling Death's Bell in Whitechapel, Whitechapel, playground of The Beast

My friends just call me Jack

Inside the London fog
I stalk and slash my prey
I come to disembowel
And send you to your grave

Sinful souls shall perish
In the dead of night
Ripping of the flesh
Left breast removed by knife

I have come
The Beast of lore
To kill again
Now as before

One hundred years Have now gone by And once again It's ripping time

Your Uncle Jack is back Tonight, I strike

My scalpel sharp Cuts to the heart I love to carve Ripper

Fit for The Beast A royal feast Of women's screams Ripper

It's the blood before my eyes
Bringing newborn life
To this tortured mind

I thrive and feed on fear Come closer now my dear Your Uncle Jack is here

Jack The Knife
