

## Flying Nimbus

Mann

Looking down at all the sucker shit  
Above the politics and corrupted governments  
The age of Aquarius has been ushered in  
West up again next up M A double N  
Rasta locks swanging west la banging  
Peace Life pushing love light and maintaining  
Became famous and act like he ain't famous  
Some homies dipped not the mission but they remain nameless  
Spoke this into existence my words are magic  
Linked with holiday, fucked around and brought y'all a classic  
Love songs and smoker anthems  
Plus food for thought, for y'all asses  
The end goal awake the masses  
Til then, smoke kush blunts laced with Hash  
Get on your grind, and make some cash  
Enjoy the moment, that's all we have make it last

Tell her Roll Up  
Roll Up Roll  
Yump Daniels  
Tell her Roll Up  
Roll Up, Roll  
Peace Life  
I remember floating high up on a cloud  
Don't think Ill ever come down  
Flying Nimbus, High up on a cloud  
Don't think ill ever come down, down, down

It's looking like heaven in the studio  
Clouds every where barely seeing through the smoke  
Saying the most player shit you can quote  
Bet you she give me the cookie cuhz she think the music dope  
Shedding some light on a generation losing hope  
All my Niggas have nothing better to do but smoke  
Same place to and fro work in a cubicle  
These 9 to 5's designed to make you lose your soul  
We can forget that the world is beautiful  
Remember our true nature as a kids, we used to know this  
Meditate find a quiet place that you can go  
Center your mind steady your breathing don't lose the focus  
Explore this space, different state, your conscious open  
Just picture for a moment, that time was frozen  
Everything you wanted at your disposal  
Rolling and Smoking Douja, Like we're supposed to
