

Soledad

Mano Negra

Nobody's coming through my way
I'm drowning in the crown with nothin' to say
Waiting for a better day
This is another beautiful Sunday
It's always the same old show
When trouble is comin' by the door
Love jumpo through the window
Here I am alone with nowhere to go
Soledad (no quiero no!)
Stinkin' with your heavy perfume
The kind I will never loose
Whistlin' your favourite tune
Called the Black Widow Blues
Soledad...
Stinkin' with your heavy perfume
Whistlin' your favourite tune
"Soledad lo que a mi me va
Soledad a mi me da la vida"
