

# Army of the Immortals

Manowar

Battle hymns did sound the call.  
You came to our side.  
You heard true metal  
Into glory ride.  
Come on yea

You stood beside us,  
The false ones cries.  
Your love is judgment,  
You gave us life.  
You wait in the rain, you walk through the snow.  
We give you our blood, we want you to know.

In our eyes you're immortal  
In our hearts you'll live forever  
In our eyes you're immortal  
In our hearts you'll live forever more.

We have read your letters, we have heard your call.  
We were brought together 'cause we've got the balls  
To play the loudest metal, so hard and wild and mean.  
You'll live forever, we were born from your belief.

Metal makes us strong  
Together we belong  
Forever here's your song

We want you to know

In our eyes you're immortal  
In our hearts you'll live forever  
In our eyes you're immortal  
In our hearts you'll live forever more

Metal makes us strong  
Together we belong  
Forever here's your song

We want you to know

In our eyes you're immortal  
In our hearts you'll live forever  
In our eyes you're immortal  
In our hearts you'll live forever more

Metal makes us strong  
It makes us  
Metal makes us strong  
It makes us stronger, stronger, stronger, stronger...  
Stronger, metal makes us strong
