

# Die for Metal

Manowar

They can't stop us  
Let 'em try  
For heavy metal  
We will die!

Quit my job this morning said forever  
I would hold my head up high  
Cause I need metal in my life  
Just like an eagle needs to fly

So I walked outside into the street  
From a hall I heard thunder and screams  
I walked inside so I could hear  
And the guy beside me gave me a beer

He had his fist up in the air  
And called me brother said my friends  
Are over there

They call themselves immortals  
They're the truest of the true  
And in that very moment  
I was born again like you

They said hold your head up high  
Raise your fist up in the air  
Play metal louder than hell  
Louder than hell

They can't stop us  
Let 'em try  
For heavy metal  
We would die!

Brothers stand beside me, there's a battle on  
Know my words are true  
There's a battle for true metal  
They're marching; they're marching on  
Me and you

Ten thousand strong are here tonight  
With twenty thousand fists up in the air  
The power of true metal's calling you  
It's everywhere

Hold your head up high  
Raise your fist up in the air  
Play metal louder than hell  
Louder than hell

They can't stop us  
Let 'em try  
For heavy metal  
We would die!
