

## Hail Kill and Die

Manowar

On hymns of battle we rode to glory  
Hail England did we  
By the sign of the hammer  
We fought the world  
Kings of metal to be  
Louder than hell  
Warriors of the world  
Now gods of war  
Stand our ground knights immortal  
For metal once more

Hail, kill and die

On this ground for death and glory  
Are all who believe  
Blood and steel bound together  
In a fight to be free  
We will arm the just  
And grind to dust  
Those who deny  
Our sacred right  
Of glory and might  
We shall survive

Hail, kill and die  
Hail, kill and die

Dark avengers armed with hatred  
Black arrows and wings  
By the hammer of Thor  
A holy war  
For the crown and the ring  
We ride the dragon and wield the power  
To fight til we die  
Sons of Odin stand so tall  
We all touch the sky

Hail, kill and die  
Hail, kill and die  
Hail, kill and die  
Hail, kill and die
