

Merry Blues

Manu Chao

So many nights
with your shadow in my bed
so many nights
baby, you whisper in my head
so many nights
sing along the merry blues
so many nights...
I told you once
I told you twice
the merry blues...
I told you once
I told you twice
the merry blues...
The merry blues
I cannot sleep
haunted by your pretty body
I cannot sleep
I want the world set on fire
so many nights
can't keep from going down lose.

I told you once
I told you twice
the merry blues...
I told you once
I told you twice
the merry blues...
The merry blues, the merry blues...

hello nadina do you do do do do do
i feel so happy when i see see see see you

you make me sing like a doubadoubad...
i know you like it like a zoubouzoubou...

hello nadina do you do do do do do
i feel the moody like to picky picky you
I told you once
I told you twice
the merry blues...

i know you like it like a rubadub stylee
i know you like the marjiuana smoking

so many nights
I sing along the merry blues
so many nights.
can't keep from going down lose...
the merry blues...
