

Love is holding hands beneath the sky  
Crushing all our fears so we can fly  
Now's the time to be all we can be  
Feelings of the love so promising

For today's the day that I can truly say  
We have come a long way together  
As 1 now's the time, time to free our mind  
And stay colorblind and be together  
As 1

City lights put us all to sleep  
Mother's making sure there's enough to eat  
People come together just to understand  
Follow your heart and live your dreams

For today's the day that I can truly say  
We have come a long way together  
As 1 now's the time, time to free our mind  
And stay colorblind and be together  
As 1

La la la la la la la la, la la la la  
La la la la la la la la, la la la la  
La la la la la la la la, la la la la  
La la la la la la la la, la la la la

Love is holding hands beneath the sky  
Crushing all our fears so we can fly  
Now's the time to be all we can be  
Feelings of the love so promising
