

## You Don't Know Her Name

Maps

Take a ride and cut on through  
Things will reach you from this place  
Barely make your senses true  
Would disappear and you can trace

You don't know her name but anyway  
This you can't check in, I feel the same

Can't remember much it seems  
Dig my stance I couldn't sleep  
Peace together everything  
Broadcast funny outside in

You don't know her name but anyway  
This you can't check in, I feel the same

You don't know her name but anyway  
This you can't check in, I feel the same

You don't know her name  
You don't know her name  
You don't know her name
