Take a ride and cut on through Things will reach you from this place Barely make your senses true Would disappear and you can trace

You don't know her name but anyway
This you can't check in, I feel the same

Can't remember much it seems Dig my stance I couldn't sleep Peace together everything Broadcast funny outside in

You don't know her name but anyway
This you can't check in, I feel the same

You don't know her name but anyway
This you can't check in, I feel the same

You don't know her name You don't know her name You don't know her name
